The editors accept also a) letters to the editor, concerning the articles printed in the journal as well as letters on important issues connected with the theme of the journal and, b) book reviews.

All submissions should be made online via an electronic submission system <http://www.editorialsystem.com/APP>. New users should first create an account. Once logged in to the site, you will be guided step by step through the creation and uploading of the various files. After correct and complete fulfillment of all elements of the submitted paper, the last option “Send to Editor” will appear in the bottom, which will enable the final transfer of the manuscript to the editor. The system will send the notification at the author’s e-mail address with the confirmation of receiving the manuscript and its registration number.

There is a possibility to publish the accepted works in the ahead of print (online first) mode 2000. Texts with the assigned DOI numbers will be published on the website of Archives of Psychiatry and Psychotherapy within 30 days after payment and then, after the regular waiting period, they will be published in the standard version (electronic and paper).

The journal charges no fees from authors on any stage of the regular publication process. The journal uses antyplagiarims program. The authors of papers accepted for printing transfer to the Publisher, without supplementary confirmation, free of charge, their copyright, without limitation of time and on the territory. Upon such acceptance, all published manuscripts become the permanent property of Pub-

lisher (Polish Psychiatric Association Editorial Committee), and may not be published or reproduced elsewhere without explicit written permission from the Publisher. All content is freely available without charge to the user or his/her institution. Users are allowed to read, download, copy, distribute, print, search, or link to the full texts of the articles, or use them for any other lawful purpose, without asking prior permission from the publisher. The works are published in Open Access mode. Their availability is regulated by CC-BY Creative Commons license and the SHERPA RoMEO Blue rule. The legal principles are regulated by the Polish Act of 4 February 1994 (with later amendments) on copyright and related rights.

Editorial and Publishing Committee of the Polish Psychiatric Association kindly informs that the personal data of Authors and Reviewers are – based on their consent signed in editorial system – processed in order to publish and disseminate the received work. This consent may be revoked at any time. The names and affiliations of the authors after their publication are available in the international space in print and on the journal’s website. Personal data of Authors and Reviewers may be – at their request – corrected or deleted from the Editorial System at any time.

A person participating in the publishing process of Editorial and Publishing Committee of the Polish Psychiatric Association journals is required to submit a statement regarding the consent for processing of personal data necessary to carry out the publishing process and dissemination of the article by the Publisher (KRW PTP – Editorial and Publishing Committee of the Polish Psychiatric Association) and entities cooperating for these purposes: the printing company Technet, Poczta Polska SA. The author submitting a work on behalf of himself and his co-authors is required to obtain their prior written

consent for processing of personal data, and to provide it to the Publisher.

The author submitting the work (and possible co-authors) is required to conclude an agreement concerning the transfer of the copyrights of the work to the Publisher. The contract form, after downloading from the editorial system, printing, signing by the Author (all co-authors) and after scanning the document, must be entered into this system during the submission of the work. After accepting the work for publication, the Author may receive a copy of the contract signed by the person representing the Publisher.

It is highly recommended to provide the ORCID number of at least one of the authors of the paper (preferably the first author).

All papers will undergo a rigorous peer review, based on initial editor screening and anonymous refereeing by at least two independent expert referees. Journal Policy regulates a double-blind review process; authors and reviewers remain anonymous. To permit anonymous review, identifying information about the authors and their affiliations should not appear in the body of the manuscript. These details must be entered when proceeding through submission. At least one of the reviewers should be affiliated in a foreign institution than the author(s).

Authors may also track the status of their manuscript using the online submission system. After receiving the reviews, the author is asked to send a paper including the reviewers' remarks by entering the manuscript in the same way as during submission. For all successfully published articles, a PDF file of the paper will be sent in the corresponding author's email address at no cost.
